DEPARTMENT OF CIVIL ENGINEERING  
SAMSKRUTI COLLEGE OF ENGINEERING AND TECHNOLOGY  
Kondapur (V), Ghatkesar(M), Medchal (Dist), Telangana-501301

PROGRAMME OBJECTIVES

GIS is a relatively recent discipline and is an area of emerging technology with a phenomenal growth over last four decades. The digital data handling led to the development of GIS (Geographical Information System). GIS and GPS techniques have dramatically enhanced human capability for natural and manmade resources exploration, mapping and monitoring on local and global scale. The course is not only going to enhance job opportunity for the civil students but shall also open an avenue of effective and viable interaction with national establishments related to various aspects of GIS. Outcomes of the Program

1. Understand the principles of aerial and satellite remote sensing, Able to comprehend the energy interactions with earth surface features, spectral properties of water bodies
2. Understand the basic concept of GIS and its applications, know different types of data representation in GIS
3. Understand and Develop models for GIS for Sri College of Engg. & Technology Kondapur(V), Ghatkesar(M), Medchal (Dist), Telangana-501301 and will be able to know about (V), Ghatkesar (M), Medchal (Dist), Telangana-501301 the questions that GIS can answer are
4. Apply knowledge of GIS software and able to work with GIS software in various application fields
5. Illustrate spatial and non spatial data features in GIS and understand the map projections and coordinates systems

education. The institute established in the year 2005. SCET is tirelessly engaged in imparting quality education.

The institute is offering various Diploma, UG & PG Programmes in the Dept of ECE, CSE, EEE, ME and CE. The institute prepares the students to suit the ever changing scenario of the global Industry by imparting them to the advanced Technology in various core fields and by developing their personality and confidence levels in addition to the regular curriculum. SCET aims at technology development through academic excellence.

About Department

Civil engineering has the potential to build a strong economy and so more multinational companies and engineers are showing their interests to be involved with this industry. Civil engineering industry focuses areas like soil mechanics, surveying and material sciences. Civil engineering specifically deals with the activities of designing and construction of structures like dams, bridges, canals, harbors, roads, tunnels, and water-supply systems, power plants, aircraft, water treatment plants etc.

Civil Engineering is a broad field of Engineering that deals with the needs of the society around the globe has created a lot of scope for the Civil Engineering professionals. Civil Engineering is a Professional engineering discipline and it is the Mother branch of Engineering that deals with the design, construction and maintenance of the physical and naturally built environment, including works such as bridges, roads, canals, dams and buildings. It is traditionally broken into several sub-disciplines including Environmental Engineering, Geotechnical Engineering, Structural Engineering, Transportation Engineering, Water Resources Engineering, Coastal Engineering, Surveying, and Construction Engineering.

The Department of Civil Engineering was established in the year 2009. The Department offers a four-year UG course leading to B.Tech.. The department organizes various seminars, workshops, industrial training to the students to create awareness on real time works. The department creates a platform for faculties and students to come together and think innovatively and move with their research.

### PROGRAM REPORT

○ **Title of the Certification Programme:**

“A Three Week Certificate Program on Geographical Information System”

○ **Date:** 03/12/2018 to 24/12/2018

○ **Duration:** Three Weeks

○ **Resource Person Details:**

**Mr.R.Laxman Reddy( Phd)**

**Assistant Professor, Department of Civil Engineering,  
Srinidhi Institute of Science and Technology.**

**Mobile: 8008970499**

**Email: [laxmanareddy@srinidhi.edu.in](mailto:laxmanareddy@srinidhi.edu.in)**

○ **Number of Students Participated:** 56

○ **Objective of the Program:**

GIS is a relatively recent discipline and is an area of emerging technology with a phenomenal growth over last four decades. The digital data handling led to the development of GIS (Geographical Information System). GIS and GPS techniques have dramatically enhanced human capability for natural and manmade resources exploration, mapping and monitoring on local and global scale. The course is not only going to enhance job opportunity for the civil students but shall also open an avenue of effective and viable interaction with national establishments related to various aspects of GIS.

○ **Outcomes of the Program:**

1. Understand the principles of aerial and satellite remote sensing, Able to comprehend the energy interactions with earth surface features, spectral properties of water bodies
2. Understand the basic concept of GIS and its applications, know different types of data representation in GIS
3. Understand and Develop models for GIS spatial Analysis and will be able to know what the questions that GIS can answer are
4. Apply knowledge of GIS software and able to work with GIS software in various application fields
5. Illustrate spatial and non spatial data features in GIS and understand the map projections and coordinates systems

○ **Contents:**

1. Review of GIS Analysis and Resource Planning
2. Data management in a geodatabase environment
3. Solving spatial problems with query and analysis

## DEPARTMENT OF CIVIL ENGINEERING A THREE WEEK CERTIFICATE PROGRAM ON GEOGRAPHICAL INFORMATION SYSTEM

### DAY WISE SESSION PLAN

DAY	TOPIC FOR DISCUSSION
DAY1	Review of GIS Analysis and Resource Planning: Resource planning in education
DAY2	Review of GIS Analysis and Resource Planning: Review of spatial analysis
DAY 3	Review of GIS Analysis and Resource Planning: Common issues in analysis; and documenting workflows.
DAY 4	Data management in a geodatabase environment: Managing Tables
DAY 5	Data management in a geodatabase environment: Feature and attribute editing
DAY 6	Data management in a geodatabase environment: Geodatabase and Feature
DAY 7	Solving spatial problems with query and analysis: Feature extraction
DAY 8	Solving spatial problems with query and analysis: Proximity analysis
DAY 9	Solving spatial problems with query and analysis: Frequency and summary statistics and Using Model Builder
DAY 10	Planning scenario analysis: Time series analysis
DAY 11	Planning scenario analysis: Hot Spot Mapping
DAY 12	Planning scenario analysis: analyzing patterns
DAY 13	Planning scenario analysis: measuring geographic distributions
DAY 14	Planning scenario analysis: Site analysis
DAY 15	Analysis Project: Site Suitability Analysis

*Principal*

**CIRCULAR**

Date: 08-10-2018

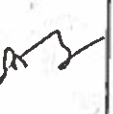

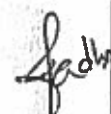

All the students are hereby informed that the Department of Electrical & Electronics Engineering is organizing "A TWO WEEK CERTIFICATE PROGRAMME ON "A TWO WEEK CERTIFICATE PROGRAMME ON SOLAR SYSTEM BASED GRID AUTOMATION" scheduled from 15<sup>th</sup> to 26<sup>th</sup> Oct, 2018. All the students are invited and advised to actively participate in the aforementioned certificate program. Upon successful participation, the students will be issued with participation certificates, 80% Attendance is required for receiving the Certificate. Interested students can enroll their names on or before 12-10-2018. For details, Students can contact K.Sridhar Event coordinator.

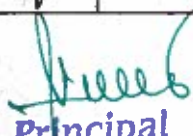

Note: Bus facility will be provided upto Uppal X Roads.

**About the Institute:**

Samskruti College of Engineering and Technology (SCET) is a pioneer of quality education. The Institute established in the year 2005. SCET is tirelessly engaged in imparting quality education.

The Institute is offering various Diploma, UG & PG Programmes in the Dept of ECE, CSE, EEE, ME and CE. The Institute prepares the students to suit the ever changing scenario of the global Industry by imparting them to the advanced Technology in various core fields and by developing their personality and confidence levels in addition to the regular curriculum. SCET aims at technology development through academic excellence.

**About Department:**

Electrical and Electronics Engineering(EEE) is a branch of science which deals with the applications of Electricity, Electronics, and Electromagnetism. Electrical and Electronic Engineers harness one of the fundamental forces of the universe, electromagnetism, for the benefit of the world. Electrical Engineers create systems to provide power for homes and industry. It focuses on giving students practical training to work in laboratories, project and group work. These engineers are responsible for designing, developing and testing electrical equipment.

The Department of ELECTRICAL AND ELECTRONICS ENGINEERING was established with the outset of the institution in 2006 with an intake of 60 B.Tech. The two year M.Tech course has been started in 2011 with Electrical Power Systems as specialization with an intake of 18 students. The Department of EEE in Samskruti, with its epoxy team of faculty members, imparts education to bachelors (B.Tech - ELECTRICAL AND ELECTRONICS ENGINEERING), Masters (M.Tech - Electrical Power Systems) The tasks of today's electrical engineers are versatile. All areas of life are affected by Electrical Engineering. The Department regularly organizes seminars, workshops, and guest lectures for the students. Faculty Development Programs(FDP) are organized for faculty to promote high standards in technical education.

**PROGRAMME OBJECTIVES**

Energy management is integral to government operations. From running bases and training facilities to powering manufacturing plants and communication systems, federal agencies rely on energy to maintain readiness and resiliency for mission operations. Today federal agencies are under increasing pressure to not only improve energy security and reliability, but to achieve and maintain annual reductions in energy use and implement energy efficiency measures that reduce costs.

**Outcomes of the Program**

- More efficient transmission of electricity
- Better restoration of electricity after power disturbances
- Lower operational and management costs for utilities, and ultimately lower power costs for consumers

### PROGRAMME OBJECTIVES

- To Learn sketching and taking field dimensions.
- Take data and transform it into graphic drawings.
- Learn advanced engineering drawing formats.
- Learn basic AutoCAD skills.
- Learn draw 2D drawings in AutoCAD

### Outcomes of the Program

- Student's ability to Perform basic sketching techniques will improve.
- Draw projections and sections.
- Use engineering scales will increase.
- Ability to produce engineered drawings will improve.

Sr. Design Engineer  
Melorite Engg pvt ltd  
Former Advisor

7<sup>th</sup> Gear Automotive & Automobes India pvt ltd

**Number of Students Participated:** 63

**Objective of the Program:**

- a) To Use AutoCAD for daily working process.
- b) To Navigate throughout AutoCAD using major navigating tools.
- c) To understand the concept and techniques to draw.
- d) To create multiple designs using several of tools.
- e) To create layers to control the objects' visibility.
- f) To explain drawing using annotations.
- g) To Plot or print the drawing by scale.
- h) To use constraint for certain design.

**Program Outcomes:**

- a) Student's ability to perform basic sketching techniques will improve.
- b) Students will be able to draw projections and sections.
- c) Student's ability to use engineering scales will increase.
- d) Student's ability to produce engineered drawings will improve
- e) Students will become familiar with AutoCAD two-dimensional drawings.

**Program Contents:**

- Introduction to AutoCAD
- Basic Drawing and Printing
- Editing Drawings
- Dimensioning and Tolerances
- Additional AutoCAD Applications

A TWO WEEK CERTIFICATE PROGRAM ON RECENT INNOVATION  
ON AUTOCAD

DAY WISE SESSION PLAN

DAY	TOPIC FOR DISCUSSION
DAY 1	Review on AutoCAD
DAY 2	Guide to AutoCAD basics controls/practice session
DAY 3	Commands for basics Shapes, editing commands Hand function key reference
DAY 4	practice
DAY 5	Review on Dimensioning and Hatching,create own drawing template file /practice session
DAY 6	practice
DAY 7	Basics of 3D Modeling/ Practice session
DAY 8	Practice session
DAY 9	Review on user co-ordinate system(UCS)/practice session
DAY 10	Review on Overlapping objects/practice session
DAY 11	Practice session
DAY 12	Output to a PDF file (continued)

**CIRCULAR**

Date: 06/07/2018

All the students are hereby informed that the Department of Electronics and Communication Engineering is organizing a Two Week Certificate Program on "BASICS OF MATLAB PROGRAMME" scheduled from 16-07-18 to 31-07-18. All the students are invited and advised to actively participate in the aforementioned certificate program. Upon successful participation, the students will be issued with participation certificates, 80% Attendance is required for receiving the Certificate. Interested students can enroll their names on or before 14/07/2018.

The training session will be conducted at 4.30pm to 6.30pm. For Details can contact program coordinator Mrs.Y.JalaJakshi, Assistant Professor, ECE Department & Mrs.K.Deepa, Assistant Professor, ECE Department.

**Note:** Bus Service Will be provided till Ghatkesar.

Complete MAT LAB using simulation tool to test electronics and electrical circuit in software environment. MAT Lab software is used in any application like signal processing, image processing and in designing various communication modules so that any student can make project on his own.

**OUTCOMES OF THE PROGRAM**

1. Gain Knowledge on basics of MATLAB
2. Gain knowledge on simulation design
3. Hands on session for Mat Lab programming
4. Hands on Session for application oriented signal processing
5. Hands on session for application oriented image processing

**ABOUT THE INSTITUTE**

Samskruti College of Engineering and Technology (SCET) is a pioneer of quality education. The institute established in the year 2005. SCET is tirelessly engaged in imparting quality education. The institute is offering various Diploma, UG & PG Programmes in the Dept of ECE, CSE, EEE, ME and CE. The institute prepares the students to suit the ever changing scenario of the global industry by imparting them to the advanced Technology in various core fields and by developing their personality and confidence levels in addition to the regular curriculum. SCET aims at technology development through academic excellence.

**ABOUT THE DEPARTMENT**

Electronics and Communication Engineering (ECE) is a swiftly advancing field, with new ideas emerging every other second. From mobile phones to fiber optics and remote sensing, there are exciting avenues to explore and create. The ECE department at Samskruti College of Engineering and Technology prepares students for careers in this constantly evolving discipline. The Department of ECE is best known for its talented and dedicated professionals renowned for their excellence in various specializations in the field of Electronics & Communication. The department is provided with state-of-the-art technological tools incorporated in all the existing laboratories. For the last ten years the students of the ECE, who walked out of the portals of the institute successfully, holding their degrees, were immediately inducted into the MNCs of high reputation in India & abroad. The augmentation of the intake of the department from 60 to 120 in the year 2006.

## DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

### CIRCULAR

Date: 11/07/2018

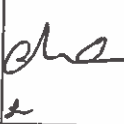

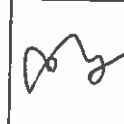

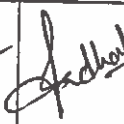

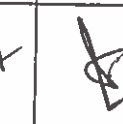

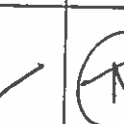

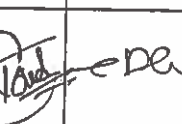

All the students are hereby informed that the Department of Computer Science Engineering is organizing "A Two Week Certificate Program on ETHICAL HACKING " scheduled from 16/07/2018 to 30/07/2018 at 04:30 PM to 06:30 PM. All the students are invited and advised to actively participate in the aforementioned certificate program. Upon successful participation, the students will be issued with participation certificates. 80% of attendance is required for receiving the certificate. Interested students can enrol their names on or before 14/07/2018. For details, students can contact the Program Coordinator Mr. K.Vamshi Krishna.

**Note: Bus Facility will be provided upto Uppal X Roads.**

# ETHICAL HACKING

16/07/2018 to 30/07/2018

Organized by  
**DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING**  
**SAMSKRUTI COLLEGE OF ENGINEERING AND TECHNOLOGY**  
Kondapur (V), Ghatkesar (M), Medchal (Dist), Telangana-501301

## PROGRAMME OBJECTIVES

1. The purpose of ethical hacking is to evaluate the security of and identify vulnerabilities in target systems, networks or system infrastructure.
2. The process entails finding and then attempting to exploit vulnerabilities to determine whether unauthorized access or other malicious activities are possible.

## Outcomes of the Program

1. Plan a vulnerability assessment and penetration test for a network.
2. Execute a penetration test using standard hacking tools in an ethical manner.
3. Report on the strengths and vulnerabilities of the tested network.
4. Identify legal and ethical issues related to vulnerability and penetration testing.

## Important Dates:

- Start date : 16/07/2018
- End date : 30/07/2018

Samskruti College of Engineering and Technology (SCET) is a pioneer of quality education. The institute established in the year 2005. SCET is tirelessly engaged in imparting quality education.

The institute is offering various Diploma, UG & PG Programmes in the Dept of ECE, CSE, EEE, ME and CE. The institute prepares the students to suit the ever changing scenario of the global Industry by imparting them to the advanced Technology in various core fields and by developing their personality and confidence levels in addition to the regular curriculum. SCET aims at technology development through academic excellence.

About Department

The Department of Computer Science & Engineering came into the existence in the year 2005 since the inception of the college, Accredited by AICTE New Delhi, Affiliated to JNTUH to offer undergraduate program with an annual intake of 120 students.

The Department is growing significantly by spreading its academic activities such as National Level Seminars, Workshops, Guest Lectures and Adjunct Courses by the eminent professors from reputed organizations JNTUH, NIT'S and IIT'S and co-curricular activities such as Tech fest, Student Seminars, Games and Sports, Industrial Visits.

The department is fully equipped with latest software that caters to the needs of our students & also aid in research and development programs. The Department is dedicated to research, education and overall excellence and is associated with the CSI. Several students have participated in paper-presentations, seminars, and technical quizzes. Many students secured GATE ranks and few had preferred to join directly in M.Tech, & MBA.

About Department:

The Master of Business Administration (MBA) is a master's degree in business administration. The MBA is a terminal as well as a professional degree. The Department of Business Administration was established with the inception of the institution in 2007 with an intake of 60 MBA Students and was enhanced to 120 students in year 2015. India is one of the many countries that has grown and is still growing rapidly in the Industrial respect. Thus, the demand as well as popularity of business related courses also took a rapid jump. MBA is one of the most popular as well as widely chosen courses amongst the other entire business related course. This is because MBA has its own values that make it superior to other courses, and hence it has wide scopes and job prospects.

After completion of MBA, a wide range of jobs and career prospective are available in the industrial and corporate sector. One can easily get jobs of Managerial or executive level after successfully completing their MBA degree. This job acts as the first step of the ladder of success, after which one can reach to the top most position of any firm. With growing number of companies and rapid industrialization, the scope of MBA is increasing every single day.
