Ganesh Chaturthi is a festival which is celebrated all over India to worship Lord Ganesh, is becoming more eco-friendly nowadays. Generally, Ganesh murtis are made of Plaster of Paris, Which are immersed in water after Ganesh Chaturthi, which harms the water bodies. Many of the people are practicing the eco-friendly Idol during Ganesh Chaturthi.

Eco-friendly Ganesh Murtis are made of organic soil/mud, natural colors. Why should you use eco-friendly Ganesh idols? Being responsible citizens we can accomplish something for our environment Plaster of Paris is non-biodegradable made of poisons and unsafe colors and it severely pollutes the sea-going life and water bodies. To spare and secure our nature, we should hold hands and do our bit, and go for eco-friendly items.
