Objective of the Program

The objective of this FDP is to provide faculty with an exposure on the basic concepts and applications of statistical theory and methods.

Points Discussed

- The basic notions of Probability
- Random variables and their Distributions
- Descriptive Statistics
- Sampling and Sampling Distributions
- Confidence Intervals
- Testing of Hypotheses
- Comparison of two populations
- One Way Analysis of Variance (ANOVA)
- Regression analysis including Simple and Multiple Linear Regression and Logistic Regression analysis

Outcome of the Program

- Effectively analyze market research surveys
- Explored many other solutions
- Conduct consumer surveys
- Analyze individual respondents

Date:08/08/2017

All the faculty members here by informed that the Department of **Mechanical Engineering** is organizing "A THREE DAY FACULTY DEVELOPMENT PROGRAMME ON MULTIBODY DYNAMICS USING SOLID WORKS MOTION" scheduled from 16th to 18th August, 2017. All the interested candidates are invited and advised to actively participate in the aforementioned program. Upon successful participation, the participants will be issued with participation certificates, Attendance for all the sessions is required for receiving the Certificate. Interested candidates can enroll their names on or before 14-08-2017.

For details , candidates can contact B Venkatesh Event coordinator .
Programme timings: 10:00 AM to 04:00 PM

Note: Bus facility will be provided upto Uppal X Roads.

Programme Report

Name of the Programme : A Three-Day FDP on Multi body dynamics using solid works motion

Organized by : Department of Mechanical Engineering

Schedule dates: 16th, 17th & 18th Aug-2017

Resource Person: Dr. S. Uday Bhasker
Professor in MREC(A), Hyderabad
Mobile: 6303622066
Email: udaylohit1412@gmail.com

Objective of the Program

- It has a hands-on approach where the various Motion Study tools in SOLIDWORKS will be demonstrated...
- It provides an introduction to the concepts of the MBD and the motion study tools in SOLIDWORKS.
- **Pre-requisites** : Mechanical, Aerospace or Automotive Engineers.

Activities Conducted

- Solid works tool based discussions
- Review has taken on all the aspects

Outcome of the Program

- It is introduced to part design and assembly and learn to perform motion analysis on the assembly in SOLIDWORKS
- Will also learn the inbuilt Motion Study add-ons
- Will learn to model the IC engine valve train.
- Will learn the effect of spring in the valve train. You will learn how to calculate the cam lift and will design the cam based on it.
- You will learn about screw mates and how to perform motion studies on it.

Objective of the Program:

- Microsoft Office is a suite of applications designed to help with productivity and completing common tasks on a computer.
- Can create and edit documents containing text and images, work with data in spreadsheets and databases, and create presentations and posters.

Points Discussed

- Preparation of Documents with alignments, layouts, mailings etc.
- Preparation of Excel sheets with advanced formulas.
- Preparation of Slides with style sheets
- Data access

Outcome of the Program

Office automation eases organizational workloads by simplifying and automating processes like accounting, data management, training, facility management, and various administrative tasks. An office automation system doesn't consist of just going paperless

The Department of Computer Science and Engineering organized A Faculty Development Program on "Network Security and Its Applications" on 25th -27th September-2017, at auditorium of Samskruti College of Engineering and Technology, Ghatkesar, RR dist. The targeted audiences were faculty members and total attended are 21.

Topics Discussed in the FDP:

- ❖ Data protection and integrity
- ❖ Encryption
- ❖ Intrusion detection and prevention
- ❖ Mobile security
- ❖ Security and privacy in multihop wireless networks
- ❖ Security in ad hoc, mesh, sensor, vehicular
- ❖ Security and privacy in smart grid, cognitive radio networks.
- ❖ Cyber crime and digital forensics
- ❖ Vulnerability, exploitation tools, malware, botnet, DDoS attacks
- ❖ Web, e-commerce, m-commerce and e-mail security
- ❖ Trust, Privacy and identity Management
- ❖ Modern cryptography

Information security, sometimes abbreviated to *infosec*, is a set of practices intended to keep data secure from unauthorized access or alterations, both when it's being stored and when it's being transmitted from one machine or physical location to another. You might sometimes see it referred to as *data security*. As knowledge

Objectives of FDP

The Objective of this FDP is to train faculty with practical skills so faculty members will train their students to identify the issues and challenges of Information security and provide

the possible solution for the same. Also sensitizing the Cyber Security to masses at large for strengthening cashless transactions.

Outcomes of Network and Information Security

- Identify some of the factors driving the need for network security
- Identify and classify particular examples of attacks
- Define the terms vulnerability, threat and attack
- Identify physical points of vulnerability in simple networks
- Compare and contrast symmetric and asymmetric encryption systems and their vulnerability to attack, and explain the characteristics of hybrid systems.
