6. According to ICH GCP, Where would you expect to find a section entitled "summary of

Data and Guidance for Investigator"

- a) Protocol
- b) Clinical study Report
- c) Investigator Brochure
- d) Investigator Agreement

7. According to the principle of ICH GCP, What is the important consideration

When conducting a clinical trial?

- a) Data accuracy
- b) Protection of trial subject
- c) process adherence
- d) Statistical quality checks

8. prior to subject participation in the trial the _____ should be signed and personally dates by the subject or by the subject's LAR

- a) protocol
- b) clinical trial agreement
- c) IRB approval report
- d) Written informed consent form

9. What does IRB stand for?

- a) Investigational Review Board
- b) International Review Board
- c) Institutional Review Board

10. An individual or juridical or other body authorized under applicable law to consent on behalf of a prospective subject. To the subject participation in the clinical trail

- a) LAR (legally acceptable representative)
- b) Subject
- c) Trial monitor
- d) Investigator

OBJECTIVE EXAM

Answer All Questions. All Questions Carry Equal Marks

Time : 20 Min.

Marks : 10

1. The form 1572”statment of Investigator” is required by
a) IRB b)FDA ~~c)Sponsor~~ d) Investigator
2. According to ICH GCP, the investigator” should be qualified by
a) Training and experience
~~b)Education ,training, and experience~~
c)Education and experience
d) Education and training
3. An SAE (Serious Adverse Event) is any untoward medical occurrence that any dose:
a) Result in death
~~b) Requires inpatients hospitalization or prolongation of existing hospitalization~~
c) Results in persistent or significant disability /incapacity
d) All the above
4. Which document created in 1964 forms the basic of ethical considerations in clinical research?
a)~~Declaration of Genev~~ b)Declaration of Helsinki
c)Declaration of Belfast
5. Who is the person responsible for the conduct of the clinical trial at

a trial site.

- a) Clinical Research Coordinator
- b) Monitor
- c) Investigator
- d) Sponsor

6. According to ICH GCP, Where would you expect to find a section entitled "summary of

Data and Guidance for Investigator"

- a) Protocol
- b) Clinical study Report

DEPARTMENT OF PHARMACY

OBJECTIVES

The overall objective of preventive medicine is to ensure the elimination of disease ,either by preventing the opportunities for disease occurrence or by halting a disease and mitigating complications after its onset. This starts as early as infancey, ensuring frequent screenings for occult disease that can be intervened upon as soon as possible and preventing complications such as nutritional deficiencies and visual deficits.

LEARNING OUTCOMES

Establishing a report with adolescent populations

Continuing that relationship into adulthood

Screening for cancers should be completed on a regular basis

Clinically indicated labs should be drawn to prevent progression of diseases like hypercholesterolemia and diabetes.

SESSION	TITLE	DURATION
1	Introduction to preventive medicine	3 Hrs
2	Infant care	3 Hrs
3	Child and adolescent care	3 Hrs
4	Prenatalcare	3 Hrs
5	Adult health maintenance	3Hrs
6	Breast cancer & Ccreening	3 Hrs
7	Diabetes & Hypertension	3 Hrs
8	Colorectal cancer	3 Hrs
9	Prostate cancer	3 Hrs
10	Lung cancer

DEPARTMENT OF PHARMACY

Academic Year : 2020 - 2021

Class And Semester : B-PHARM II YEAR

Title of Add – On/ Certification Program : Hands On Training In Parenteral Administration

Duration : 30 Hours (3 Hrs per day) during 03 – 10- 2020 To 16 - 10 – 2020

Course Code : BPH/II/PAD/2020

Curriculum Designed and Developed by :

S. No	Faculty Name	Designation	Signature
1	Dr. Smitha Madhuri	Assistant Professor	
2	Dr. Rajendra Prasad	Assistant Professor	
3	Dr. Ratna sree	Assistant Professor	

OBJECTIVES

The overall objective of preventive medicine is to ensure the elimination of disease, either by preventing the opportunities for disease occurrence or by halting a disease and mitigating complications after its onset. This starts as early as infancy, ensuring frequent screenings for occult disease that can be intervened upon as soon as possible and preventing complications such as nutritional deficiencies and visual deficits.

LEARNING OUTCOMES

- Establishing a report with adolescent populations
- Continuing that relationship into adulthood
- Screening for cancers should be completed on a regular basis
- Clinically indicated labs should be drawn to prevent progression of diseases like hypercholesterolemia and diabetes.

Title of Add-on/ Certification Program : Hands on Training in Parenteral Administration

Course Code : BPH/II/PAD/2020

OBJECTIVE EXAM

Answer All Questions. All Questions Carry Equal Marks

Marks : 10

Time : 30 Min.

1. Which of the following dosage form is having maximum bioavailability?

- a) Tablets b) parenteral c) Emulsion d) None of the above

2. parenteral dosage form must be

- a) sterile b) clear
c) isotonic d) All the above

3. The usual volume for an intrathecal route of administration

- a) 0.5-2ml b) 2-20ml c) 1-4ml d) 5-10ml

4. pKa for basic drug ranges from

- a) 3-7.5 b) 5-8.5 c) 7-11
d) 11-13

5. x-ray power diffractometry of amorphous form gives

- a) sharp peak b) Diffused peak
c) Both sharp/diffused d) non of the above

6. Co-solvents can be used to improve

- a) Solubility b) Dielectric constant c) pKa d) pH

7. Chemical modification be used to improve

- a) solubility b) Optical activity c) solvate formation d) none

8. Benzalkonium chloride is generally used as

- a) Preservative b) Antioxidant c) Surfactant d) Solubilizing agent

9. Distillation is one of the methods PF preparation of

- a) WFI
b) Solution
c) Emulsion
d) None

10. Which of the physical form gives rapid absorption and slow duration of action?

- a) Crystalline form
b) Amorphous
c) Both a and b
d) None of the above

a) sterile b) clear c) so tonic d) All the above
3. The usual volume for an nitrate cal route of administration
a) 0.5-2ml b) 2-20ml c) 1-4ml d) 5-10ml
4. pka for basic drug ranges from _____
a) 3-7.5 b) 5-8.5 c) 7-11 d) 11-13
5. x-ray power diffract to meter of amorphous form gives _____
a) sharp peak b) Diffused peak c) Both sharp/diffused d) none
6. Co – solvents can be used to improve _____
a) Solubility b) Dielectric constant c) pka d) ph
7. Chemical modification be used to improve
a) solubility b) Optical activity c) solvate formation d) none
8. Benzalkonium chloride is generally used as
a) Preservative b) Antioxidant c) Surfactant d) Solubilizing agent
9. Distillation is one of the methods of preparation of _____
a) WFI b) Solution c) Emulsion d) None
10. Which of the physical form gives rapid absorption and slow duration of action?
a) Crystalline form b) Amorphous c) Both a and b d) None of the above

8

SAMSKRUTI COLLEGE OF PHARMACY

DEPARTMENT OF PHARMACY

Academic Year : 2020 – 2021

Class and Semester : B PHARMACY II YEAR

Title of Add – on/ Certification Program : Hands on Training in Parenteral administration

Course Code : BPH/2020/PAD

OBJECTIVE EXAM

Answer All Questions. All Questions Carry Equal Marks
Marks : 10

Time : 30 Min.

- 1) Which of the following dosage form is having maximum bioavailability?
 a) Tablets b) parenteral c) Emulsion d) None of the above
2. Parenteral dosage form must be
 a) sterile b) clear c) so tonic d) All the above
3. The usual volume for an intracal route of administration
 a) 0.5-2ml b) 2-20ml c) 1-4ml d) 5-10ml
4. pKa for basic drug ranges from _____
 a) 3-7.5 b) 5-8.5 c) 7-11 d) 11-13
5. X-ray power diffract to meter of amorphous form gives _____
 a) sharp peak b) Diffused peak c) Both sharp/diffused d) none
6. Co – solvents can be used to improve _____
 a) Solubility b) Dielectric constant c) pKa d) pH
7. Chemical modification be used to improve _____
 a) solubility b) Optical activity c) solvate formation d) none
8. Benzalkonium chloride is generally used as
 a) Preservative b) Antioxidant c) Surfactant d) Solubilizing agent
9. Distillation is one of the methods of preparation of _____
 a) WFI b) Solution c) Emulsion d) None
10. Which of the physical form gives rapid absorption and slow duration of action?
 a) Crystalline form b) Amorphous c) Both a and b d) None of the above
