4.1.2 The Institution has adequate facilities for cultural activities, sports, games (indoor, outdoor), gymnasium, yoga centre etc.

Response:

Co-curricular and Extra-curricular activities are part of the regular academic curriculum. The Institution believes that such activities should mirror regular academics for the holistic development of the students. The Institution has defined its policy through which all the students are encouraged to participate in any of the prescribed activities in a particular academic year. Such activities include Sports, Cultural, Yoga, Art & crafts, and others. The Institution facilitates the participants by providing attendance and special classes are conducted to discuss critical and complex concepts. The participants are provided with financial support in the form of TA and DA to the students. The Institution recruits expert Coaches and Mentors who train students with a professional approach.

Supplies and Equipment:

Every year, requests for general facility equipment and supplies are submitted as part of the college budgeting process. Before they are approved, the demands for facility applies and equipment are revised and prioritized by the College Purchasing Committee. About some essential tools and services on the other hand, certain laboratory equipment is routinely maintained by devoted technicians in the lab, typically over the summer vacation, under an annual maintenance contract where business representatives visit frequently for the same. The policy on equipment and other resources states that in order to provide ongoing education and effectively completes scheduled objectives, instructional materials equipment must be timely obtained, repaired, or replaced. Also, these resources must be adequate, current, relevant, and current. The program's equipment and supply needs are determined by instructors, directors, and advisory panels, who also propose annual budget request for any necessary expenditure.

Instructors are responsible for inspecting materials and equipment to ensure that they fulfil manufacturer specifications, codes, laws, and regulations pertinent to specialized materials and equipment, as well as their intended usage.

Evaluation:

The College uses a variety of applications to assess the physical infrastructure of the campus and the operational systems that support it, including internal surveys, reports, outside evaluations and governmental inspections.

Maintenancance and Improvement Policy and Procedure

Inorder further our goal, this policy aims to conserve and improve the campus buildings, other infrastructural amenities, useful facilities and other essential facilities at Samskruti College of Pharmacy.

Responsibilities and Roles:

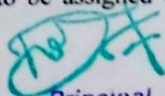

Security, campus health and safety, material handling, building and grounds maintenance, and utilities are all part of the campus facilities services. The heads of department can be contacted by staff members for routine service requests.

Campus buildings are protected by staff placements and security mechanisms. Internal processes, policies, and procedures are consistently built and updated to address current and upcoming security concerns. A routine operating brief is conducted by the security supervisor describing facility facts and current security problems. This information is reviewed and used for continued improvement.

Employees of College Facilities Services respond to maintainance and repair requests for buildings and equipment on daily basis. Requests requiring highly specialized or advanced knowledge and/ or competence were handled by equipment suppliers and outside parties.

Staff members can submit requests for facility and equipment maintenance and/or repair by logging into the college's main registry. When a request is made, the office technician gets in touch with the appropriate maintenance personnel, to receive a response. Regular staff meetings cover the status of open projects, the resources required to complete them and the workload that has to be assigned to guarantee timely response and resolution
