Environmental Education and Awareness	<ul style="list-style-type: none"> 1.Green Initiatives 2.Reduction of plastic usage 3.Pedestrian friendly pathways 4.Water conservation 5.Energy conservation

Action Plan Successfully Implemented

The institution has implemented the strategic plan with regards to building an eco-friendly environment at the institution. The institution is committed to inculcate responsibility among its students and faculty to conserve natural resources and as such it has come up with Green Policy and has become successful in making the campus clean and green. The institution planted a number of trees in and around the campus. Faculty and students donated plants of medicinal value which are well maintained. A small garden is built aside of the blocks of the building. To protect and preserve the water resources, the college has implemented rain water harvesting system. Fresh water pond eco-system in the north-east corner of the institution serves to hold a biodiversity of species and refreshes the moods.. Single use plastic is completely discarded in the college. The institution minimizes the power consumption by using LED bulbs and solar bulbs.
