PROGRAM REPORT

Program Name: Awareness program on 'Health among Adolescent Women'.

Date of Activity: 18.02.2022

Venue: College Seminar hall.

Organized by: Department of Pharmacy.

Number of participants: 40

The teenage years are also called adolescence. During this time, teens will see the greatest amount of growth in height and weight. Adolescence is a time for growth spurts and puberty changes. A teenager may grow several inches in several months followed by a period of very slow growth. Adolescence is a crucial time to set young women on a path toward a healthy future. Girls who are poor, have little education or live in rural areas are more likely than their peers to become pregnant, putting their and their newborn's lives at risk. Poor diet and low physical activity are additional challenges which begin in childhood and adolescence, as does sexual abuse. Older adolescent girls are disproportionately affected by intimate partner violence. Pregnancy complications and unsafe abortions are the leading causes of death among 15-19-year-old girls. Therefore it is essential to make the female students and staff members of the college aware about various aspects of adolescent health.

In this program the participants were made aware about

- What is adolescent women?
- What age is an adolescent female?
- The stages of adolescence.
- The physical changes in adolescence.
- How do you take care of an adolescent girl?
- The meaning of adolescent health.
- Why is adolescent girls health important?
- The health needs of adolescents.
- Adolescent health problems.
- The factors that influence adolescent health.
- The needs of adolescent mothers.

PCOS is a very common hormone problem for women of childbearing age. Women with PCOS may not ovulate, have high levels of androgens, and have many small cysts on the ovaries. PCOS can cause missed or irregular menstrual periods, excess hair growth, acne, infertility, and weight gain.

Therefore it is essential to make the female students and staff members of the college aware about various aspects of PCOS.

In this program the participants were made aware about

- What is PCOS?
- the stages of PCOS.
- The causes PCOS.
- How do you know if you have PCOS?
- The symptoms of PCOS in females.
- What does PCOS belly look like?
- How do I check PCOS at home?
- Can PCOS get pregnant?
- Ways to overcome the problem of PCOS.

World Vaccine Day is a global healthcare awareness event observed on the 10th of November every year, intended to create awareness of the significance of immunisation by getting timely vaccination and how it can be prevented from different diseases. The World Health Organisation (WHO), in association with various international and local groups, joined hands together in this worldwide event to conduct various events, workshops, seminars to create awareness of immunisation.

Therefore it is essential to make the students and staff members of the college aware about World Vaccine Day and its importance.

In this program the participants were made aware about

- Vaccination and its importance.
- Programs undertaken by the WHO for increasing the vaccination awareness and rate.
- Brief note on the vaccination programs undertaken by the Governments in our country.
- World Vaccine Day and its importance.

Haritha Haram - An Environmental Promotional Program:

Samskruti College of Pharmacy is conducting an important environmental promotional program named 'Haritha Haram' both inside and outside the college campus every year by making the involvement of more number of female students and staff of the college apart from the male students and staff especially to sensitize them on the importance of the plantation program 'Haritha Haram'. This program also emphasizes the importance and role of plants and trees in minimizing the pollution and in maintaining the good environment for the health and wellbeing of the society. The college is ready to encourage the larger involvement of female students and faculty in any other kind of environmental promotional program that it undertakes in future.

The NSS unit and students of Samskruti College of Pharmacy in association with their faculty have organized a plantation program named 'Haritha Haram' at the college premises and outside the campus of Samskruti Group of Institutions which comes under the village Kondapur on 18th July 2022. The purpose of undertaking this program is to bring an awareness regarding the necessity and advantages of plantation and growing the plants on the earth both in the campus students and in the nearby local community.

Ganesh Chaturthi is a festival which is celebrated all over India to worship Lord Ganesh, is becoming more eco-friendly nowadays. Generally, Ganesh murtis are made of Plaster of Paris, are immersed in water after Ganesh Chaturthi, which harms the water bodies. Many of the people are practicing the eco-friendly Idol during Ganesh Chaturthi.

Cell : 9701368996,

Eco-friendly Ganesh Murtis are made of organic soil/mud, natural colors. Why should you use eco-friendly Ganesh idols? Being responsible citizens we can accomplish something for our environment Plaster of Paris is non-biodegradable made of poisons and unsafe colors and it severely pollutes the sea-going life and water bodies. To spare and secure our nature, we should hold hands and do our bit, and go for eco-friendly items.

On 30.08.2022 from our college 50 students have participated in the Matti ganapathi rally held at Ghatkesar bustop and they talked about all the uses of Eco Friendly Ganasha.

PROGRAM REPORT

Program Name: 'Awareness program on Malnutrition'.

Date of Activity: 16.09.2022

Venue: College Seminar hall.

Organized by: Department of Pharmacy.

Number of participants: 44

Malnutrition refers to deficiencies or excesses in nutrient intake, imbalance of essential nutrients or impaired nutrient utilization. The double burden of malnutrition consists of both under nutrition and overweight and obesity, as well as diet-related non-communicable diseases. Malnutrition is a serious condition that happens when your diet does not contain the right amount of nutrients. It means "poor nutrition" and can refer to: under nutrition – not getting enough nutrients. over nutrition – getting more nutrients than needed. Malnutrition leads to various diseases in future if not treated properly. It is essential to avoid the malnutrition. Therefore it is essential to make the students and staff members of the college aware about various aspects of Malnutrition.

In this program the participants were made aware about

- The malnutrition and its types.
- Persons who are at most risk of malnutrition.
- The different stages of malnutrition.
- The symptoms of malnutrition.
- The different causes of malnutrition.
- The different diseases of malnutrition.
- The formula for malnutrition.
- How is malnutrition treated in general?
- Prevention of malnutrition.
- The effects of malnutrition.
- The disadvantages of malnutrition.
- What are common malnutrition?
- What is the most common malnutrition?
- The ten steps in management of malnutrition.

PROGRAM REPORT

Date: 27.09.2022

Program Name: 'Health camp in the event of World Pharmacist Day'.

Dates: 26th September 2022.

Venue: College Auditorium.

Organized by: College NSS unit.

Participants: students and staff members.

Number of Participants: 105 members.

The NSS unit and students of Samskruti College of Pharmacy in association with their faculty have organized the Health camp in the event of 'World Pharmacist Day' inside the Auditorium of the campus of Samskruti Group of Institutions on 26th September 2022. The program was conducted to perform the primary health check up of the students and staff of the campus.

Samskruti College of Pharmacy encourages its students and staff members in the organization of some social welfare programs for the local community by involving more number of students and staff members. The students of the college along with their faculty and few non-teaching staff members have organized a 'Health Camp' at the Auditorium of Samskruti Group of Institutions in the event of World's Pharmacist Day 2022 on 26th September 2022. The students and staff members of the group of institutions have attended the camp and got tested by the students for some basic health parameters like blood pressure, blood glucose, BMI, etc. and took the counseling, suggestions and clarified some of their doubts from the students and faculty regarding their health related problems.
