PROGRAM REPORT

Program name: Awareness program on 'Avoid Plastic'.

Date: 13.12.2023

Venue: Kondapur Village.

Agency involved: College NSS Unit.

Students participated: 27 members.

Plastics are non-biodegradable. Once introduced into the environment, they take several years to decompose. Plastics cause environmental pollution. They cannot be burnt as when burnt, they release poisonous gases. Every day, the equivalent of 2,000 garbage trucks full of plastic are dumped into the world's oceans, rivers, and lakes. Plastic pollution is a global problem. Every year 19-23 million tonnes of plastic waste leaks into aquatic ecosystems, polluting lakes, rivers and seas. Plastic sticks around in the environment for ages, threatening wildlife and spreading toxins. Plastic also contributes to global warming. Almost all plastics are made from chemicals that come from the production of planet-warming fuels (gas, oil and even coal).

Therefore, there is a need to bring an awareness regarding the drawbacks of plastic usage in the people of the society.

The NSS unit of Samskruti College of Pharmacy has organized an awareness program on 'Avoid Plastic' with the help of its students and staff members in the Kondapur village on 13th December 2023 to bring an awareness regarding the drawbacks of plastic usage and the importance of avoiding its usage in the people of the village. The people of the village cooperated and supported in successful conduction of this program.
