PROGRAM REPORT

Program name: 'Republic Day'.

Date: 26.01.2023

Venue: College campus.

Organized by: Department of Pharmacy.

Students and staff members participated: 152 members.

Every year on 26th January, 'Republic Day' is observed and celebrated across the country. Republic Day is celebrated on January 26 every year to remember the day when the Constitution of India came into effect after India gained independence after a very long freedom struggle. **Republic Day** is a national holiday in India commemorating the adoption of the Constitution of India, and the country's transition to a republic which came into effect on 26 January 1950.

The constitution replaced the Government of India Act 1935 as the governing document of India, thus turning the nation from a dominion into a republic post its independence from the British Raj in 1947. The constitution was adopted by the Constituent Assembly of India on 26 November 1949 and came into effect on 26 January 1950. The date was chosen as the Indian National Congress proclaimed 'Purna Swaraj' (complete independence) on this day. Republic Day is commonly associated with parades, political speeches, cultural events and ceremonies, in addition to various other public and private events celebrating the history, government, and traditions of India.

Republic day was celebrated by flagasting following the speeches of the Principal, HODs and some of the staff members and the students. The principal and HODs of the college reviewed and explained most of the details about the preparation of constitution of India and the significance of it. They speakers in this ceremony also explained about the significance of the 'Republic day'. Large number of students and staff members were participated in this ceremony and few of the cultural events on this occasion and made the program successful.

Program name: 'Independence Day'.

Date: 15.08.2023

Venue: College campus.

Organized by: Department of Pharmacy.

Students and staff members participated: 185 members.

An **independence day** is an annual event commemorating the anniversary of a nation's independence or statehood, usually after ceasing to be a group or part of another nation or state, or after the end of a military occupation, or after a major change in government. Many countries commemorate their independence from a colonial empire. Not all countries mark independence as a national holiday. Many, such as Australia, Canada, Denmark, New Zealand, Ireland, Luxembourg, Saudi Arabia, South Africa, Taiwan, and Turkey mark other dates of significance.

The government of India decided to celebrate the 77 years of independence of India, with tribute to people instrumental in bringing India thus far in its journey, in the spirit of self-reliant India. It is the initiative to celebrate and commemorate 77 years of independence from British rule and the history of India's people, culture and achievements. The commemoration is to be celebrated through a series of events organized by the government of India.

In the usual ceremonial practice the prime minister of India hoists the flag from Red Fort at Delhi followed by a speech on achievements and proud moments as a people of India. The individual states and cities of India will also celebrate the same at their local level. Independence day was celebrated by flagasting following the speeches of the Principal, HODs and some of the staff members and the students. The principal and HODs of the college reviewed and explained most of the details about the events taken place in the history that lead to independence of India and the significance of it. PROGRAM REPORT

Program name: Awareness program on 'Avoid Plastic'.

Date: 13.12.2023

Venue: Kondapur Village.

Agency involved: College NSS Unit.

Students participated: 27 members.

Plastics are non-biodegradable. Once introduced into the environment, they take several years to decompose. Plastics cause environmental pollution. They cannot be burnt as when burnt, they release poisonous gases. Every day, the equivalent of 2,000 garbage trucks full of plastic are dumped into the world's oceans, rivers, and lakes. Plastic pollution is a global problem. Every year 19-23 million tonnes of plastic waste leaks into aquatic ecosystems, polluting lakes, rivers and seas. Plastic sticks around in the environment for ages, threatening wildlife and spreading toxins. Plastic also contributes to global warming. Almost all plastics are made from chemicals that come from the production of planet-warming fuels (gas, oil and even coal).

Therefore, there is a need to bring an awareness regarding the drawbacks of plastic usage in the people of the society.

The NSS unit of Samskruti College of Pharmacy has organized an awareness program on 'Avoid Plastic' with the help of its students and staff members in the Kondapur village on 13th December 2023 to bring an awareness regarding the drawbacks of plastic usage and the importance of avoiding its usage in the people of the village. The people of the village cooperated and supported in successful conduction of this program.
