

VISION

To be an institution molding globally competent professional as an essence of noble.

MISSION

To transform the young generation as technically complete, ethically sound and socially committed professionals by providing a vibrant learning ambience, for welfare of society.

1. Effective Leadership:

- At Samskruti College of Engineering and Technology, the leadership team is dedicated to realizing the vision of developing globally competent professionals. This commitment is evident in strategic initiatives that prioritize high standards in education and skill development.
- The leadership actively promotes ethical practices and social responsibility, ensuring that all educational endeavors align with the mission to foster technically proficient and socially committed individuals.

2. Decentralization:

- The governance structure at Samskruti College encourages decentralization, empowering various departments to take initiative in achieving institutional goals. This approach allows faculty and staff to engage meaningfully in decision-making processes.
- By distributing responsibilities across different levels of governance, the college enhances its ability to respond effectively to both local community needs and global educational standards.

3. Participatory Governance:

- The college promotes participatory governance by involving students, faculty, and other stakeholders in key decision-making processes. Regular feedback mechanisms, such as surveys and meetings, ensure that diverse perspectives are considered in shaping institutional policies.

PRINCIPAL

- Various committees comprising students, faculty members, and administrative staff convene regularly to discuss initiatives that align with the college's vision and mission, fostering a collaborative environment.

4. Evidence of Alignment:

- Documentation such as meeting minutes from governance bodies, strategic planning documents, and reports on participatory initiatives serve as evidence of how leadership practices at Samskruti College reflect its vision and mission.
- The institution conducts periodic assessments to evaluate the alignment of its programs and activities with its stated goals, ensuring continuous improvement in governance practices.

5. Long-term Institutional Perspective Plan:

- Samskruti College has developed a comprehensive Institutional Perspective Plan that outlines both short-term and long-term objectives linked directly to its vision and mission. This plan includes strategies for enhancing technical education, ethical training, and social responsibility among students.
- Leadership regularly reviews this plan to adapt to evolving educational landscapes and societal needs, ensuring that the college remains relevant and impactful.
